

SMART FITNESS PLANNER

TEAM 2

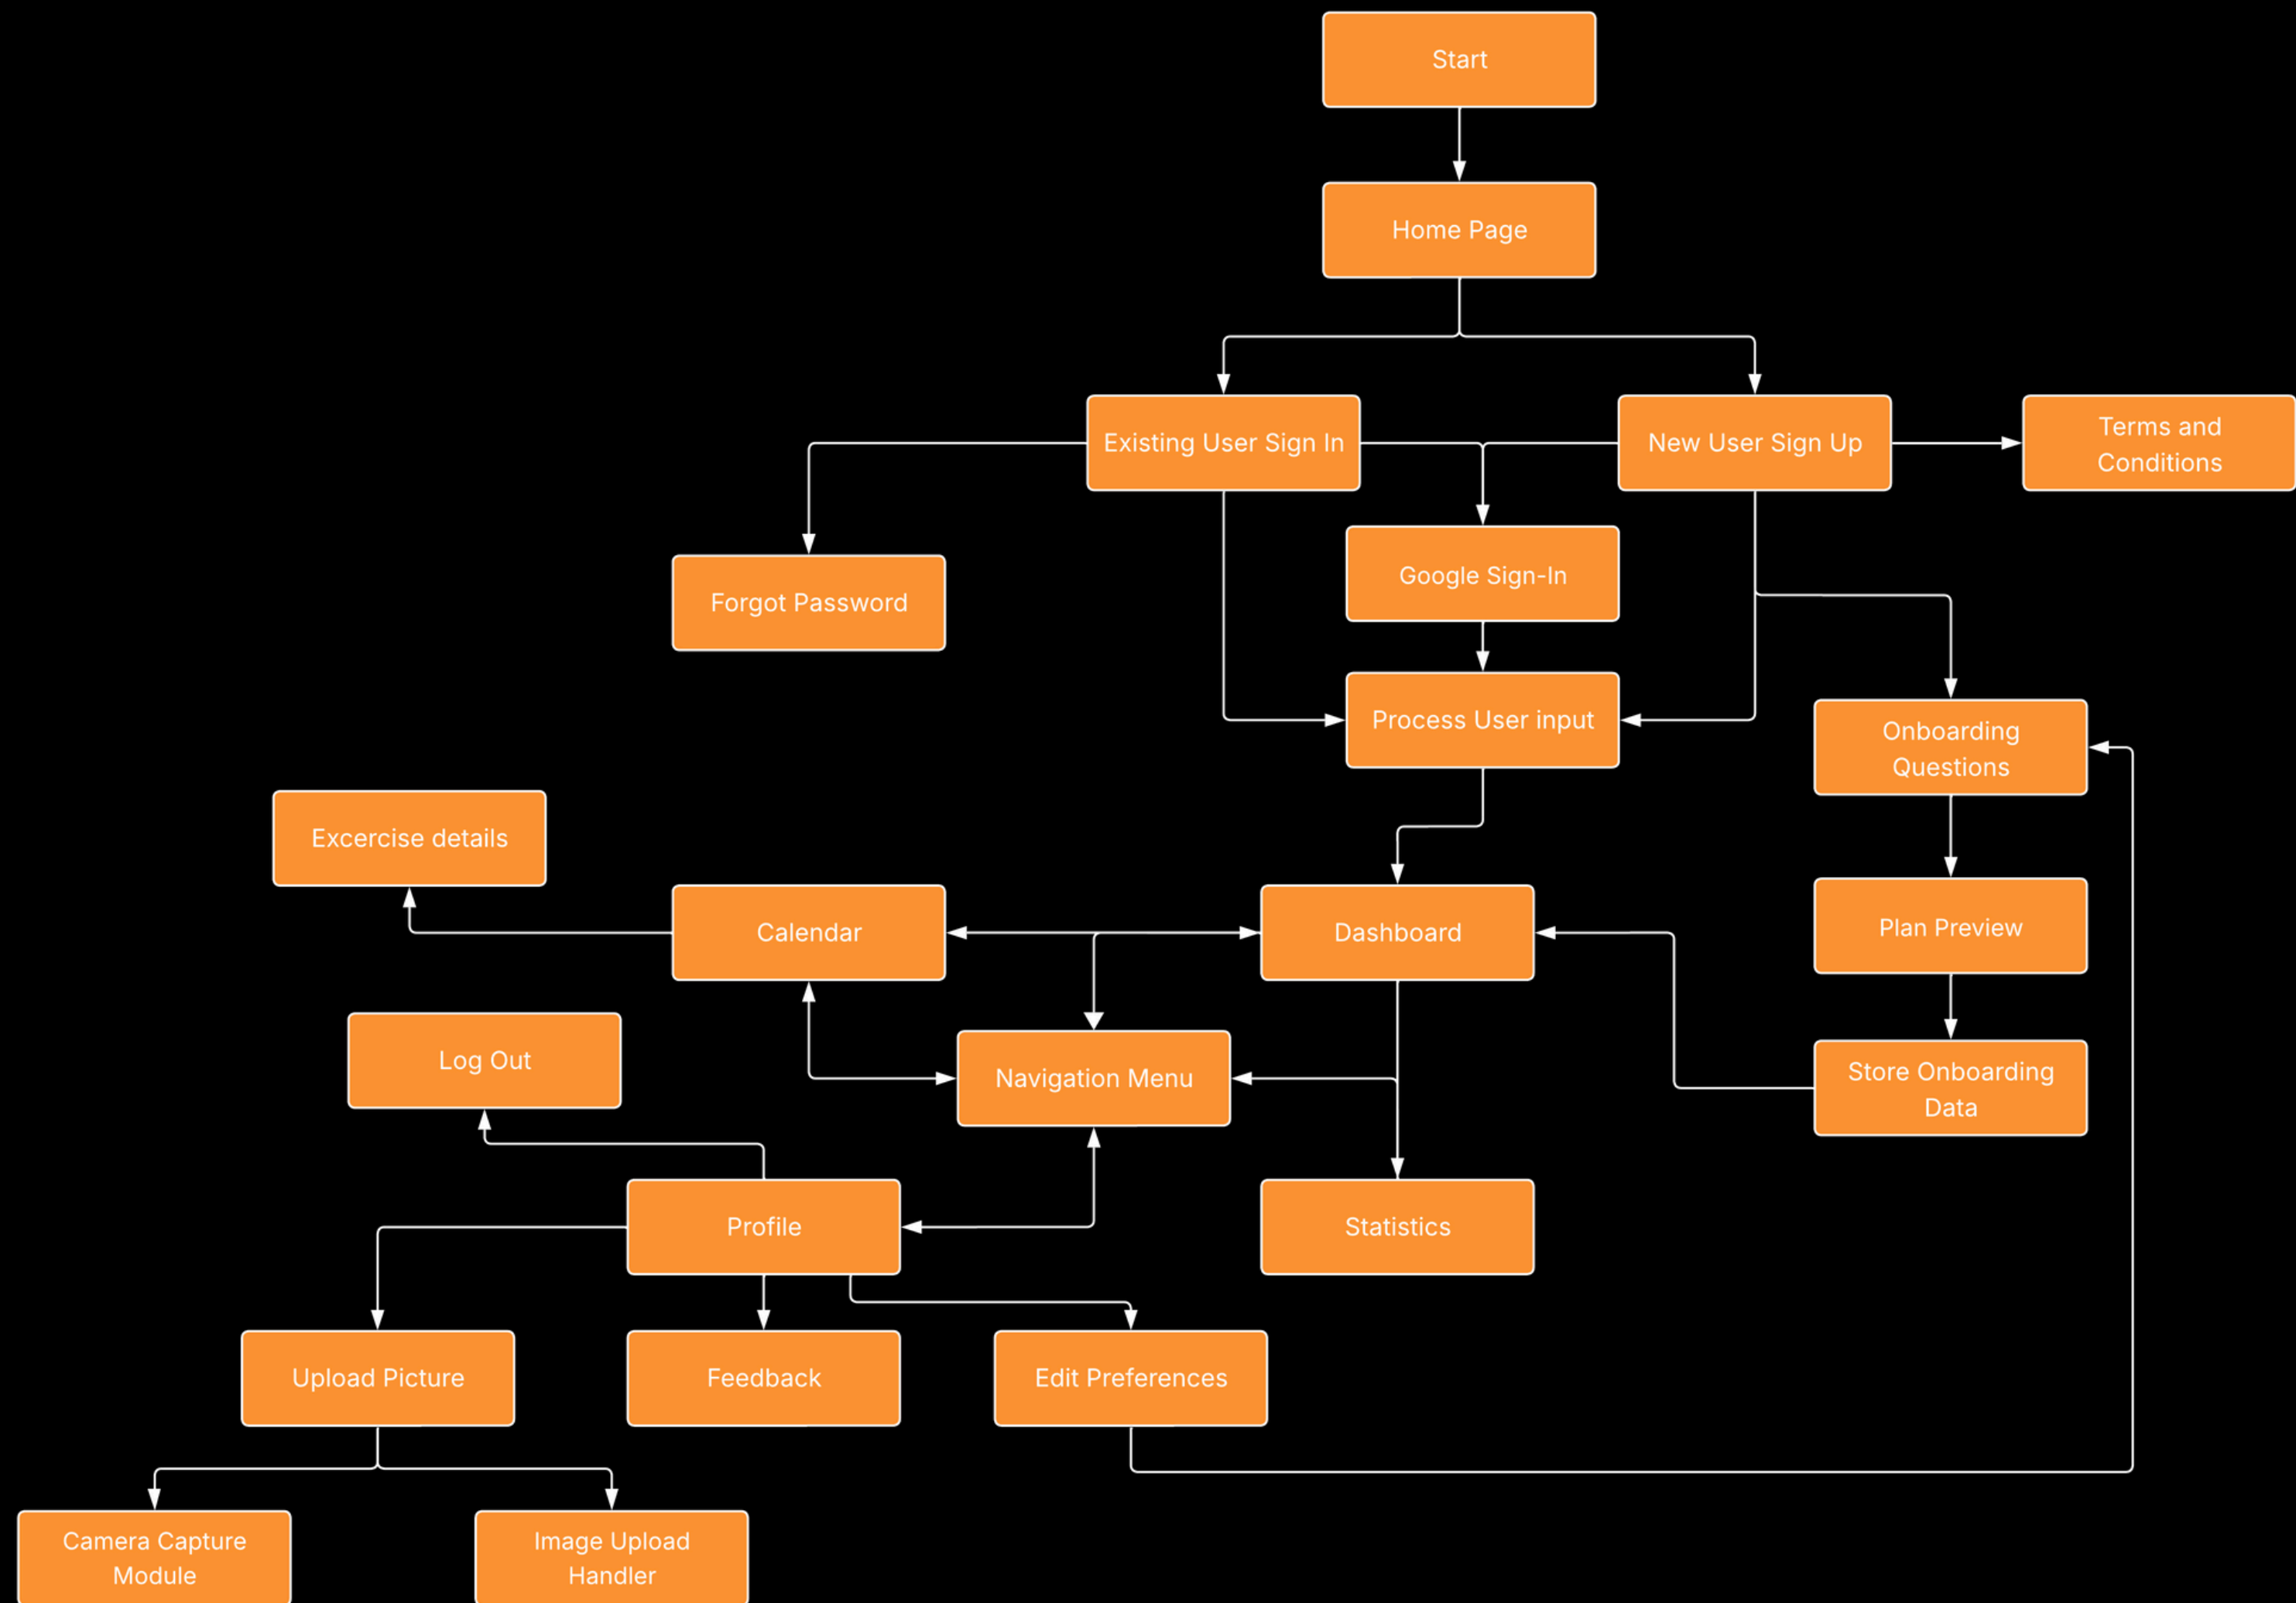

CPT-200 – System Analysis and Design

SMART FITNESS PLANNER

A personalized fitness web app that helps users stay consistent with their goals through customized workout plans and progress tracking.

HOW IT WORKS:

1. Users complete a short onboarding questionnaire.
2. A workout plan is generated based on their goals, level, and availability.
3. Users access workouts via a weekly calendar.
4. Progress is tracked with interactive stats and charts.
